

```
1 import java.util.*;
2 class Multiples_of_3or5
3 {
4     void main()
5     {
6         int sum=0;
7         for(int i=1;i<1000;i++)
8         {
9             if(i%3==0 || i%5==0) //checking for the multiple
10                sum+=i;           //addition of multiples
11         }
12         System.out.println("Sum of multiples of 3 or 5 below 1000 = "+sum);
13     }
14 }
```

BlueJ: Terminal Window - ACM_Recru

Options

Sum of multiples of 3 or 5 below 1000 = 233168
